Project Feedback update

Blair Lamb demonstrated the Project Feedback website with content based on the input from the committee members.

The work of the committee in identifying areas of disproportionate impact was discussed. These areas are:

- remote instruction
- students who do not participate in SEA programs or other interventions
- part time students

The importance of project feedback for or the projects that are concern of this committee was pointed out.

It was noted that the current equity plan cover the years from 2019 through 2022 so the committee needs to

start planning for the new equity achievement plan and the next round of planning soon.

A comment was made regarding the need to sustain equity programs for a long period of time in order to continue the impact of these programs for as long as this impact is needed.
