# The Research Question Flow

---

# Problem Statement Activity

## Identify the Problem

EX 1: [SUBJECT GROUP] does not have access to [SERVICE]

EX 2: [SUBJECT GROUP] is not achieving [MEASUREMENT]

## Guiding Question

EX 1: Why do [SUBJECT GROUP] not have access to [SERVICE]

EX 2: How can we help [SUBJECT GROUP] achieve [MEASUREMENT]

## What Do We Know ... (Data or Literature Review)

EX 1: [SUBJECT GROUP] represent X percent of [POPULATION]

EX 2: [SUBJECT GROUP] population has [DEMOGRAPHICS]

# Problem Statement Activity

## Importance and Relevance Starters:

This is significant because ...

This suggest ...

This is important ...

## Research Question Starters:

What ...

How ...

Why ...

Does ...

## Importance or Relevance

EX 1: Understanding [SUBJECT GROUP] lack of does access to [SERVICE] will allow us to improve [SERVICE].

EX 2: Understanding how to support [SUBJECT GROUP] in achieving [MEASUREMENT] will allow us to improve [MEASUREMENT].

## The Research Question

EX 1: How does providing [SUBJECT GROUP] with [INTERVENTION] improve the rate in which [SUBJECT GROUP] accesses [SERVICE]?

EX 2: What is the impact of [INTERVENTION] on [SUBJECT GROUP] ability to achieve [MEASUREMENT]?
