- (O = Overall project/S = SEA funded)
- O | S**
- Personnel** (working directly on project)
- Faculty
 - Manager
 - Classified Staff
 - Student Employees (peers)
 - STNC
- Materials**
- Supplies
 - Printing/Graphics
 - Textbooks/Magazines/Periodicals
- Services**
- Travel, Workshops
 - Equipment Leases/services
 - External services/contracts
- Equipment/Capital Outlay**
- Furniture
 - Technology equipment/software
 - Instructional/Non-Inst. Equipment
- Direct Student Support**
- Supplies given to students (meal vouchers, books, etc.)
 - Childcare
 - Awards (given for an award received)

- (O = Overall project/S = SEA funded)
- O | S**
- Direct Work with Students**
- 1:1 work with students
 - Work with groups of students
 - Work with students prior to college entry
- Support Activities**
- Financial or material assistance (\$, books, etc.)
 - Academic support or preparation
 - Life, career or other skill building
 - Matriculation step support
- Educational Activities**
- Educational programs or workshops
 - Educational planning
 - Curriculum development
- Practitioner-focused Activities**
- Professional/staff development
 - Research
- Other**
- Technology tools or software
 - Marketing, Publicity, PR
 - Referral/Utilization of services
 - Other _____

- Cognitive Complexity**
- Critical thinking
 - Reflective thinking
 - Effective reasoning
 - Intellectual flexibility
 - Emotional/cognitive integration
 - Identity/cognitive integration
- Knowledge**
- Understanding knowledge from a range of disciplines (acquisition)
 - Connecting knowledge to other knowledge, ideas, & experiences (integration)
 - Relate knowledge to daily life (application)
 - Career decidedness
 - Technological competence
- Humanitarianism**
- Understanding and appreciation of human difference
 - Cultural competency
 - Social responsibility
- Civic Engagement**
- Sense of civic responsibility
 - Commitment to public life through communities of practice
 - Engage in principled dissent
 - Effective in leadership
- Inter/Intrapersonal Competence**
- Realistic self-appraisal and self-understanding
 - Personal attributes such as identity, self-esteem, confidence, ethics and integrity, spiritual awareness, personal goal setting
 - Meaningful relationships
 - Interdependence
 - Collaboration
 - Ability to work with people different from self
- Practical Competence**
- Effective communication; capacity to manage one's personal affairs
 - Economic self-sufficiency and vocational competence
 - Maintain personal health and wellness
 - Prioritize leisure pursuits
 - Living a purposeful and satisfying life
 - Media, Technology or Information literacy
- Persistence & Academic Achievement**
- Manage the college experience to achieve academic and personal success
 - Leading to academic goal success including degree attainment
- Other:** _____

- INVITED & WELCOMED**
- Students feel a sense of belonging & a part of the SRJC Community.
 - Students introduced to campus activities, support services, and academic programs.
 - Students' skills, talents, abilities & experiences are recognized; they have opportunities to contribute on campus and feel their contributions are appreciated.
- GUIDED & SUPPORTED**
- Students know about and utilize services and supports that help them form an opinion, make a decision, stay on track.
 - Students have a goal and know how to achieve it.
 - Students stay on track – keeping their eye on the prize.
- ENGAGED & EMPOWERED**
- Students actively contribute to the college community.
 - Students feel they are reflected and represented in the campus culture and motivated to contribute.
 - Students actively participate in class and extracurricular activities.
 - Students feel somebody wants to help them succeed.

2019-20 SEA Funded Project Inquiry Form

Please type in your responses to the below questions within the space provided.

Summarize your projects' overall goals and/or intentions for students.

Our goal is to provide technology to students who have limited access to the tools they need to succeed in their classes. We invested in purchasing laptops for students who cannot afford their own computers and who may be unable to use campus computer labs because their schedules do not align with the labs' open hours. Laptops represent a considerable cost to students and can inhibit their success as more and more classes include online components and as we continue to grow distance learning enrollments.

Please describe the specific activities supported by SEA funds.

In 2017 we used SEA funds to supplement our budget and purchased approximately 100 laptops. We then check the laptops out to students. Generally, we check out all of our laptops and need to provide waiting lists. Previously, the checkout period was for either 3 weeks or the entire semester; however, during the COVID crisis, we have extended our loan period for the entire semester so a one-time physical checkout will assist students while minimizing the risk of spreading infection. Students value these laptops more than ever as their access to computers is severely curtailed by the epidemic.

Share any highlights or achievements your group had during the year – refer to the following data if applicable.

Data shows that this program continues to be successful, as it serves students who are disproportionately affected by technology costs and it increases course completion among those groups. For example, 45.7% of students who use the program are from low-income households, which is greater than the district's proportion of low-income students (32%). While 65.7% of low-income students complete courses, 71.3% of these students who use the program complete courses.

The same pattern holds true for Latinx and African American students: The district's student population is comprised of 37.5% Latinx and 2.5% African American students; these students' complete courses at rates of 67.1% and 59.2%, respectively. Students who use our program are 46.6% Latinx and 11.6% African American and complete courses at the respective rates of 71.3% and 75.4%. The average course completion rate for disadvantaged students is 71%, but students who use our program complete courses at a rate of 76.2%.

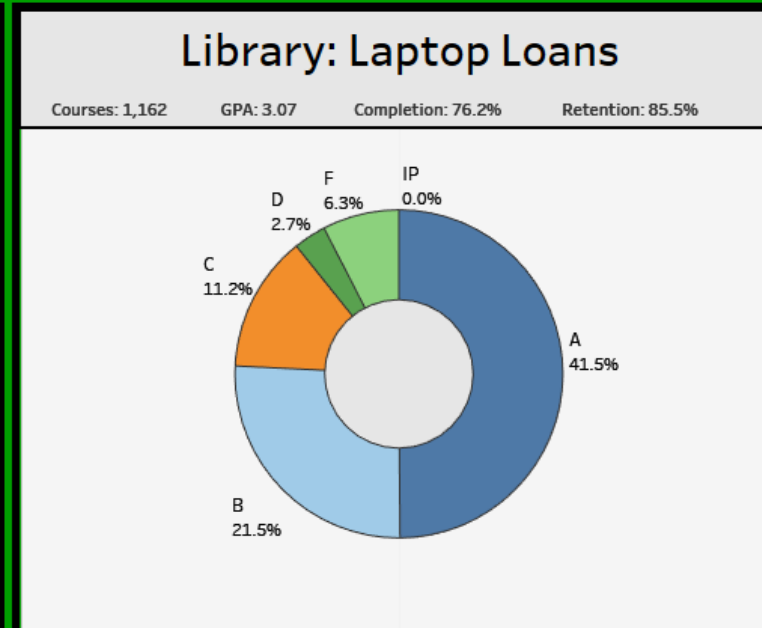

The program also shows a marked increase in persistence. While the 55% of disadvantaged students in the district show fall to spring persistence 85.1% of students in the program persist from fall to spring, and 71.4% persist from fall to fall, as compared to the 42% in the district. These persistence rates suggest that the program has effectively removed barriers that inhibited student success, especially when considering the obstacles faced by disadvantaged students.
