

Student Success and Equity Project Evaluation 2017-18

Project Contact Name & Department: Kyle W / Student Equity Dept.

Project Name: SR Student Success Team- Student Success Peer Coaches

Project Outcomes

1. Describe the project, including activities utilized and intended outcomes.

Through best practices that Welcome, Guide, and Engage new students, the SRJC Student Success Team aims to increase student engagement, help students complete their success steps, and increase student retention and persistence. Success Coaches welcome students through 1-on-1 Peer coaching, guide them to support services and resources, and engage them in peer led workshops to increase soft skills and share student tips for success.

Which Student Equity Indicator(s) is your project expecting to impact?	<input type="radio"/> Access <input type="radio"/> ESL and Basic Skills <input type="radio"/> Transfer	<input type="radio"/> Course Completion <input type="radio"/> Degree / Cert Completion
Which of the Integrated Student Success Goal(s) is the primary focus of your project?	<input checked="" type="radio"/> Invited and Welcomed <input type="radio"/> Engaged and Empowered <input checked="" type="radio"/> Guided and Supported <input type="radio"/> Succeeding and Completing	

2. Reflect on the data provided by the Office of Institutional Research.
 - a. Based on your project’s student population data, what student groups is your project serving? Please provide a brief explanation for these results.

Based on the project population data provided by OIR, our Student Success Team served 35% First Gen population, compared to 23.7% for the district. Among our diverse student groups, 51% of students served identified as Latino, compared to 37.7% for the district. 25% of students served were part of DSPS, compared to 9.4 % for the district, and 4.6% of students were current or former foster youth, compared to 1.7% for the district.

3. Based on the Student Equity Indicator data, did your project participants have better academic outcomes as compared to the District averages? Which outcomes and why?

Based on the Student Equity Indicator data, our students had much better persistence rates (81.1 compared to 65.8% for the district average). The other academic outcomes were not heavily impacted, and were closer to or slightly lower than the district average. This could have to do with the fact that our program is not tied to the classroom, but requires students to selectively participate in the program *outside* of the classroom, by meeting with a success coach, or attending a workshop or campus event.

- a. Based on the Student Survey data, did your project impact the Integrated Student Success goals? Which goal area and why?

Our project positively impacted the Student Success goals, with all 3 goals rated higher for our Success Team than for SRJC overall as a district. The two goals impacted the most, were Guided and Supported and Engaged and Empowered, with both scoring .3 higher on a 4 point scale (3.37 vs 3.08 for Guided & Supported, and 3.23 for Engaged & Empowered vs 2.89 for the District;) while Invited and Welcomed only was scored .04 higher than the district. This could likely be due to the fact that first impressions make a large impact, and our cohort of students for last year was College Skills Math (371/372) and English (312/313) courses, so not all students were new, and some may have already had their impression of if they were Welcomed and Invited at SRJC when they first arrived.

4. Overall, how has your project helped SRJC make progress towards having equitable outcomes and achieving our Integrated Student Success goals?

Overall, the Student Success Team has made positive gains toward achieving our goals of Inviting and Welcoming, Engaging and Empowering and Guiding and Supporting, all SRJC students. Also by comparing the population data to the SRJC average, our Success Team is working with students from diverse backgrounds, specifically LatinX, First Gen, DSPS, and foster youth students, at a higher rate than the district, working to close the opportunity gaps that exist for these student populations.

Evaluation and Project Improvement

5. Is your project utilizing other methods to receive feedback or evaluate your project? If yes, please describe.

In addition to the OIR provided Integrated Success and Equity Data, we internally surveyed our students through Survey Monkey, offering a raffle to win a \$25 Bookstore gift card for students who completed the survey.

- Out of 48 total respondents, 83% (40 responses) said they were either likely or somewhat likely to recommend a Success Coach to another students.
- 70% of respondents said the coaches were helpful or somewhat helpful with Academic Success Strategies
- 65% of respondents said they accomplished 1 or more goals with a success coach

Some sample quotes provided by Survey respondents:

“Overall I just liked working with a Success Coach, he was extremely helpful”

“Keep Success Coach alive!”

“Great support!”

“It would be nice to hire more success coaches, so more students can discover better opportunities.”

“I felt like more than just a number”

“It was nice to know that there is a place I can go when I need some guidance academically.”

“I could not be any more happier working with Margaret she is an awesome person she makes everything fun and entertaining all so she helps me with my personal thoughts and found me caregiving”

6. What is your long term vision for the project?

Long term, the SRJC Student Success Team is working to welcome, guide and engage all new students who come to SRJC and help them stay on track and ultimately achieve their educational goals. Having Success Coaches as part of a First Year Experience or Summer Bridge program, to show new students from diverse backgrounds that they are represented on campus, and opportunities exist for engagement, and other students as well as staff and faculty are here to help them succeed!

7. What can the Integrated Student Success Committee do to support your project?

Continue to fund the Student Success Teams, and provide suggestions and feedback about ways we can reach more students in a more effective manner. We are in a continuous improvement model where we strive to always get better, and seek input from all parties to further our team success.

Notes:

Selectable Filters (upper left):

Specify the groups to compare on the **Program Participation Rate** table and the **Pillar Score Survey** and **Academic Outcomes** charts - between the district population and selected program of interest.

Program Participation Rate:

Compares individual headcount and proportion (%) of district population with the selected program of interest (unduplicated by term).

Pillar Scores from Survey:

Measure to assess how **Invited & Welcome**, **Guided & Supported**, and **Engaged & Empowered** students feel at SRJC.

A subsection of questions from the 2016 SRJC Student Climate Survey, that touch on these topics, were administered to program participants in May 2018.

2017-18 Academic Outcomes:

Success, Retention, and GPA comparisons between district average and program of interest - individual students are duplicated by enrollments.

Fall to Spring Persistence Rate is based on unduplicated enrollments.

Terms:

Unduplicated by term: A individual student is represented once per term, yet may be counted twice for the academic year if enrolled in both terms (select Term filter to disaggregate further).

Course Success: Passing grade of "C" or better.

Course Retention: Any non "W" grade.

Spring to Fall Persistence: Rate of students enrolled in Fall 2017 that continue and enroll in Spring 2018.

Student Success Team Satisfaction Survey

Q1 Which Success Coach have you worked with? (Check all that apply)

Answered: 48 Skipped: 0

ANSWER CHOICES	RESPONSES	
La Reva Myles	4.17%	2
Rodrigo Alarcon	25.00%	12
